FOR IMMEDIATE RELEASE:

TOPIC: FAILED ATTEMPT BY THE NEW PATRIOTIC PARTY TO USE MONEY TO INDUCE THE YOUTH

We are aware of the clandestine operations of the New Patriotic Party to undermine the candidature of Alan Kyerematen. This time in a full display of 'monocracy', there have been blatant attempts to use money as a tool to pull young people from the Movement for Change. This is defining of the awful state of the New Patriotic Party who are forced in their panic mode to stoop so low.

Let us emphasize that the true young people of this Revolution cannot be bought. We the youth are convinced in the leadership of Alan Kyerematen and will not trade our integrity and convictions on the altar of incompetence and corruption. The duopoly of NPP and NDC will no longer be allowed to take young people for granted through disgraceful acts of financial inducement rather than providing solutions for Job creation and opportunities for young people.

The depth of intelligence of the NPP has to be questioned as they are celebrating the fact that they have used money to persuade poster sticking and noise making babies to join them. If the NPP thinks they have made any iota of progress then indeed they must be a laughing stock because the babies they claim to have pulled with money, have zero influence at the edge of the gutters of our structures. They don't even have the mettle to convince their own parents much more the Ghanaian voter.

To you, the stomach political apparatus who have been so cheapened by your greed to think your poster sticking and noise making roles are substantive enough to undermine this revolution, we applaud your ignorance.

NPP and NDC shall no longer take the youth for granted. NPP and NDC cannot buy the conscience of young people with their spoils of corruption. The youth shall win this war!

God bless Ghana! God bless the Movement for Change!!
God Bless Alan Kyerematen!!!

Signed:
Luther-King Junior
Convener
